Projections and Goals of Theta Chapter Corporation

We Need Your Help to Attain Them

By Dr. Robert Whitacre

The house corporation, which began three years ago as a new organization, began the house renovation drive this past spring with a goal of \$150,000. In cooperation with the University's Building and Grounds Department, we established a list of priorities to restore the Beta house to an attractive fraternity house.

With moneys from the house corporation, plus new moneys pledged and raised this past year, we began the renovations. Necessary maintenance has been completed by the University.

This past summer, we made improvements to the house costing over \$44,000. The renovations at this point have been made in the most visible areas. The living room, now a "showplace," has new carpeting, drapes, collapsible doors separating it from the dining room, leather sofas and chairs, brass lamps and sturdy tables. The dining room has a new floor, new drapes, and new tables and chairs. The chapter room has a new floor with three stars. The rec room sports a new floor, new lighting, new table and bench units. The TV room in the basement has a new carpet and some sturdy used furniture. We hope to make improvements next in the sleeping and study areas, the hallways and the outside patio area.

With approval from OWU, we finished our present remodeling with moneys drawn against projected funds to be raised. We hope to have substantial support from the Theta Chapter alumni during the remaining renovation fund drive.

Undergrads Appreciate Renovations

Alumni Support Inspires Determination

By Stuart Feldman '91

The fall semester started off on the right foot for Theta Chapter. When we arrived in September, we found that our house corporation had renovated our living room, dining room, television room, recreational room and women's bathroom. Also, a fund-raiser was in progress that would pay for later renovations. Most other fraternity houses at Ohio Wesleyan have been renovated recently, so with the house looking as good as it does, the men of Theta Chapter felt confident about rush.

Scott Ellis '91, the rush chairman, had many exciting events planned for the prospectives. In determining who received bids, we paid special attention to the prospectives' grades and participation in activities while in high school. After a long two weeks of rush, 10 of the finest men pledged the house.

The active members of the house have already picked a community service project and have donated most of our community time to the Delaware County Cultural Arts Center. Projects include yard work, moving furniture and painting. We would also like to help if they need assistance in the art classes taught to the young students of Delaware. In addition, some of our time will go to People In Need, the Salvation Army and M.A.D.D.

The undergrads have been not only contributing to the community, but also

been strong on campus, either leading all other fraternities or finishing a close second out of twelve. "We feel most confident in heading the list for the fall of 1989," says Scholarship Chairman, Michael Colson '91.

Socially, Theta Chapter has never had a problem. We will be looking forward to the Tom Jones party, Miami Tri-Ad and our formal this year.

As president, I am pleased to say that there are 32 quality undergrads dedicated to Beta Theta Pi. As you have read, they have not only dedicated themselves to social aspects, but also to other activities that will help them to become well-rounded.

We are looking forward to the remainder of the year. Keep you posted in the next newsletter.

Alumni Corporation Helps Undergrads Rebuild House

Alumni Weekend, Alumni Communications and Fund Raising Among Topics on Agenda

By Kirk Keller '91, Alumni Chairman

Last year, Raymond "Skip" Cheseldine '50 and Robert Neff '53 headed a group which established a major goal of the alumni corporation: getting alumni support for Theta Chapter. They scheduled a meeting and invited the president of Ohio Wesleyan, David Warren; Ohio Wesleyan's development manager, Ronald Stephanie; the House Corporation president, Donald Bishop; a house corporation member, Bill Rowland; the Theta Chapter president, Stuart Feldman; and the Theta Chapter secretary, Brien Donovan.

The agenda of this meeting included a discussion of Beta's recognition on the campus and what direction the house should take while being rebuilt. Also discussed were fund raising for the house, alumni weekend and our new alumni communications program.

We hope that through this meeting, Theta Chapter will become even better and alumni support will continue to be forthcoming and strong. All of our alumni are invited to stop by to see the improvements already made. We look forward to seeing you in person and hearing from you through our newsletter.

Alumni Involvement, Attendance, Traditions Sought by Undergrads

Renovated House, Fallfest '89 Great Success for Those In Attendance

By Kevin McDonnell '91

The Theta Chapter of Beta Theta Pi has undergone numerous changes since its reinstatement in the fall of 1987. There have been many trying times. Our goal, the activation of diverse gentlemen, has made it difficult to establish an identity as a house. Without consistent contact with our previous Theta Chapter brothers, it has been difficult to associate ourselves with the history and traditions that make each Beta chapter unique. Who were the brothers who held role numbers 1 through 1520, and what were their goals for the Theta Chapter?

Returning to our house this fall was a pleasant surprise. The alumni had richly upgraded the physical appearance of our house. A fresh feeling of gratitude and esteem for our alumni was instilled in every active. A material respect for our house and ourselves began the process of unification which had not always been present. All of us realized that the alumni were wholly responsible for the renovations and our new-found inspiration, and we looked forward to thanking them for the healthy atmosphere in which we now live.

The weekend of October 13 brought Fallfest—our first chance to show off our proud new pledges and actives in our refurbished house. On Friday night we had an in-house party which catered to the recent alumni and friends of Beta. All guests were impressed by the new furnishings, finding it hard to believe that the house was the same one in which they had recently lived. Dan Wyant '89 commented that "You guys are living in the 'Marriott' of fraternity houses, not the 'Econo Lodge' Beta house that I lived in for two years." The evening of camaraderie was captured in the photo on page 5.

Saturday was the day we all looked forward to. After the fourth-ranked Ohio Wesleyan football team swamped arch-rival Denison, Beta had a cocktail party to greet our illustrious alumni. Unfortunately, only a few alumni attended, which came as a disappointment to those of us who were looking forward to thanking our benefactors. The party was nevertheless enjoyable. Three Betas from the class of 1976 and one from 1964 shared their stories with us on the front patio.

The weekend was enjoyed by family and friends of Beta, all of whom expressed appreciation for the house improvements made possible by the alumni.

Theta brothers take well-deserved break during one of several community service projects. In addition to the Delaware County Cultural Arts Center, the brothers will be donating time to the Big Brother program, People In Need, and M.A.D.D. as well as participating in such projects as the Block Party and Ribfest.
