Dear Brother Rich,

I recieved your letter today concerning the program that your chapter used for your Centennial celebration. In looking over the pamphlets that you enclosed, one could not help but appreciate the work that you put into the celebration. It was obviously a big sucess and I heartily congratulate you.

I am sure that the the information that you sent will be of immeasureable help to us as we have already started to formulate our program. As you said in your letter, the details are not needed for I imagine they would vary from chapter to chapter.

I thank you for your trouble in sending us this information, and I should like to add that if we can ever be of any assistance to you, please do not hesitate to write.

Thanking you again, I am

Sincerely yours in — kai —
